Our Story

Délice is a true Belgian family business with a soul for chocolate.

Our vision is to create and offer exclusive premium quality innovative artisanal products to offer an added value for the assortment of our customers.

This incredible journey started in 1976 in Kortrijk with Marc Hauspy, after a 10 years' experience in the world of pastry. He opened his own chocolate store to create a wide assortment of premium quality products.

After 40 years of growth, the family Lingier joined Délice. With their 4 generations of experience in the world of chocolate and confectionery they strengthened and further developed this beautiful company.

In 2018 Délice moved to a completely new production unit in Ostend.

A premium chocolate studio was created where craftsmanship merged with innovation. With our own in-house exclusive design and innovative product development we distinguish ourselves and our products in the market.

Our chocolatiers are fully equipped with advanced machinery, allowing them to meet the highest standards for our customers. All of this in combination with manual craftsmanship, we give each of our chocolates a personal finishing touch.
